The Department of Computer Science seeks individuals desiring to make fundamental contributions to both computer science and the life sciences in bioinformatics. Three tenure-track positions are currently open: one at the Professor rank and two at the Associate/Assistant rank. Applicants for the senior position must have a significant record of grant funding. All applicants must have a demonstrated research record in computer science or computational science, and a commitment to addressing life science problems. Full information about the positions, the department, and current work related to bioinformatics at Virginia Tech is available at http://www.cs.vt.edu.

The Department of Computer Science has an outstanding record of multidisciplinary research, with expertise in human-computer interaction, high performance computing, problem solving environments, software engineering, and digital libraries.

Applicants should send a curriculum vitae, a statement of research goals in both computer science and life science, and at least three letters of reference to Bioinformatics Faculty Search, Dept. of Computer Science, 660 McBryde Hall (0106), Virginia Tech, Blacksburg, VA 24061. Review of candidates will begin October 15, 2001, and continue until the positions are filled.

Virginia Tech is deeply committed to recruiting, selecting, promoting, and retaining women, persons of color, and persons with disabilities. We strongly value diversity in the college community, and seek to assure equality in education and employment. Individuals with disabilities desiring accommodations in the application process should notify Dr. Dennis Kafura, 540/231-6931, TTY: 800/828-1120.
