Consider the vector:

\[70, 48, 11, 66, 37, 14, 57, 82, 67, 100, 96, 6, 36, 55, 26, 60\]

1) Show all stages of quicksort when applied to sort this vector.
2) Show how heapsort will operate on this vector.
